

HYKLEEN™

Cold Sterilant

Broad Spectrum
Environment Friendly
Biodegradable
Ease of use

HYKLEENTM Cold Sterilant

HyKleen Cold Sterilant is a stabilised Peracetic acid product that offers state of art cold sterilisation. Its careful formulation makes a simple and safe fast acting cleaning agent: being biodegradable is more environmentally friendly than traditional methods.

Principle

The concentration of Peracetic acid in HyKleen is sufficient not only to react with the cell walls proteins, but also penetrate into the interior of cells, oxidizing all protein contents. The Peroxide content is an efficient cleaning agent and sterilant.

Application

HyKleen Cold Sterilant is an effective sterilant formulated for use after dilution for many applications, for example, high purity water systems, medical and laboratory equipment. It is mostly used in Dialyzer Reprocessing System.

Features

Effective against bacteria and fungi when used as a sterilant

Environment

- Discharges to drain where it breaks down into oxygen, acetic acid and water
- Shelf life is 12 months after manufacture

Package

Safety degasification system with splash-proof cap
Packing size: 10 ltr. bottle

Specifications

Peracetic Acid	5-5.5% w/w
Hydrogen Peroxide	20-25% w/w
Acetic Acid	9-11% w/w
